A Multi-Year Fixed Strategy is used to credit interest to the Initial Premium. The interest rate is guaranteed for the full Term Period. At the end of the Term Period the Accumulated Value will be transferred to the 1-Year Fixed Strategy.

Additional Premiums will be allocated to the 1-Year Fixed Strategy. The Initial Interest Rate for this strategy is set at issue and is guaranteed for one year. A Renewal Interest Rate is declared on each Contract Anniversary for the next Contract Year. This rate may vary each year, but it will always equal or exceed the Minimum Renewal Interest Rate.

<sup>1</sup> The index is an excess return index. The returns of the index will reflect the performance of the underlying components in excess of a reference rate that could be earned on cash or a similar risk-free benchmark asset. Additionally, the performance of the index includes an embedded fee and may also include other costs such as transaction and replication costs. These costs may vary over time with market conditions. The excess return nature of index and the embedded fees and costs will all reduce index performance and the potential interest credited within the annuity contract. Because the index applies a volatility control mechanism, the range of both the positive and negative performance of the index is limited.

<sup>2</sup> The Index features a performance control mechanism that limits its maximum growth potential within any given month. Consumers may therefore forego part of the growth of the Index if it rises beyond this limit within a month.

<b>Terminal Illness Waiver<sup>6</sup></b> (Not available in CA)	You can withdraw up to 100% of your annuity's Accumulated Value if the Annuitant is diagnosed with a Terminal Illness that is expected to result in death within one-year and you meet the eligibility requirements. This waiver is available after your first Contract Anniversary. You may not be diagnosed during the first Contract Year. Additional limitations, state variations and exclusions may apply. Please see the Certificate of Disclosure for more information.
<b>Confinement Waiver<sup>6</sup></b> (Not available in CA)	After the first Contract Year, you can withdraw up to 100% of your annuity's Accumulated Value if the Annuitant is confined to a Qualified Care facility for at least 60 consecutive days and meets the eligibility requirements. Confinement must begin after the first contract year. Additional limitations, state variations and exclusions may apply. Please see the Certificate of Disclosure for more information.
<b>Bailout Feature</b>	If Athene lowers the declared 1-Year Point-to-Point S&P 500® Index Strategy Annual Cap Rate below the Bailout Cap Rate, you'll have full access to your annuity's Accumulated Value – free of any charges for up to 30 days after the Contract Anniversary in which the Bailout Cap Rate was pierced. After the 30-day Bailout Window, all charges may apply.
<b>Market Value Adjustment (MVA)</b> (Not available in CA)	Applied to the portion of the withdrawal or surrender that exceeds the Free Withdrawal amount during the Withdrawal Charge period. Additional limitations, variations and exclusions may apply. Please see the Certificate of Disclosure or Understanding the MVA guide for more information.
<b>Death Benefit</b>	Greater of (i) Accumulated Value or (ii) the Minimum Guaranteed Contract Value (MGCV).

<sup>6</sup> This benefit is NOT long-term care insurance nor is it a substitute for such coverage.

## Income Rider

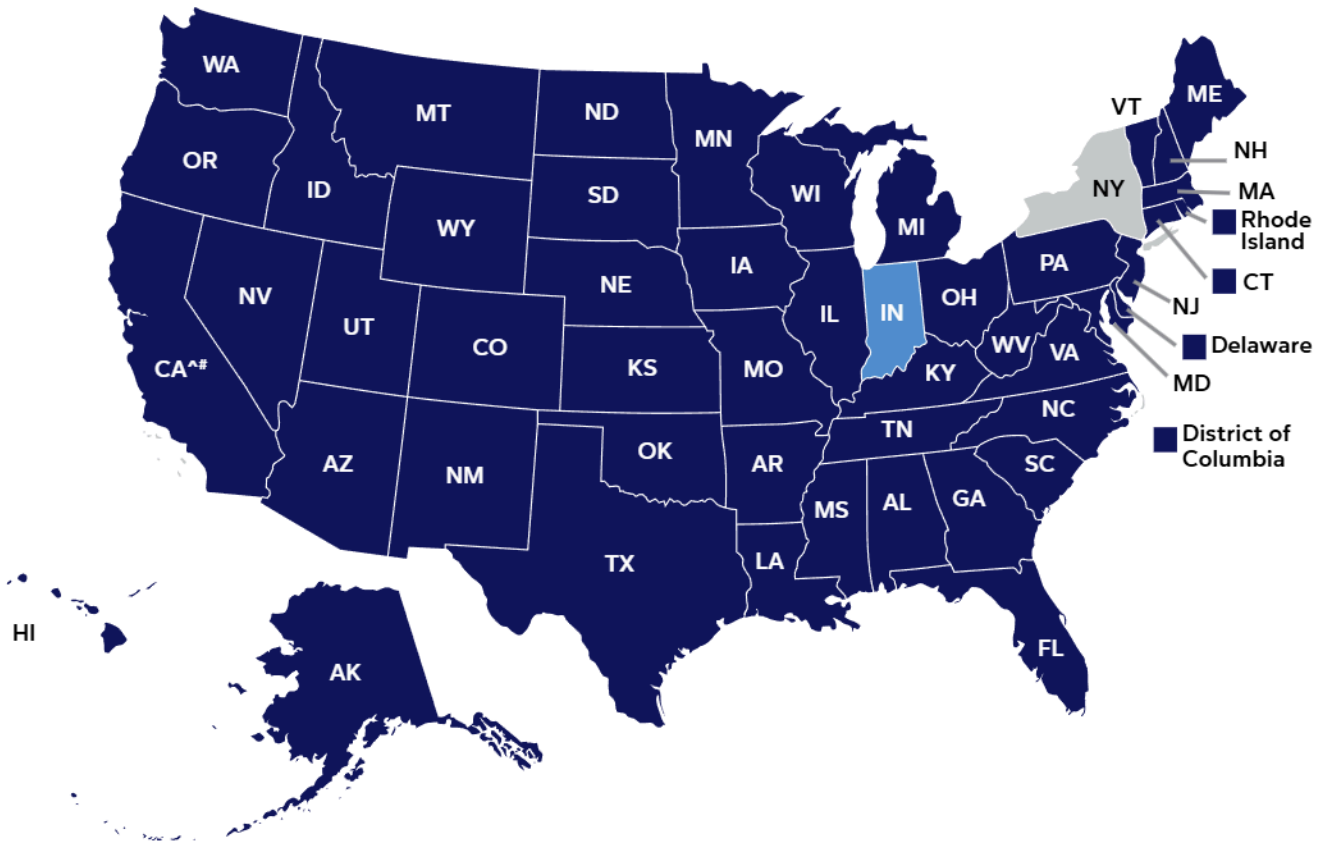

## Income Rider

<b>Income Base</b>	The Initial Income Base is equal to the Initial Premium plus Income Base bonus. On each Contract Anniversary, an interest credit will be calculated based on the Premium minus Withdrawals multiplied by an Income Base Guaranteed Simple Interest Rate. Withdrawals will reduce the Income Base. The Income Base cannot be withdrawn in a lump sum. The Income Base is used to determine rider benefits only. It does not have a cash value or a surrender value.
<b>Income Base Bonus</b>	20%
<b>Annual Income Rider Charge Rate</b>	1.00% of the rider's Income Base and applies for the full contract term. The Rider Charge is deducted monthly from your annuity's Accumulated Value and Minimum Guaranteed Contract Value (MGCV). Rider Charges are not deducted from the MGCV in certain states.
<b>Minimum Age for Lifetime Income Withdrawals Benefit</b>	50
<b>Income Payout Options Available</b>	Level Income, Earnings-Indexed Income, or Accelerated Income
<b>Accelerated Income<sup>7</sup></b>	Option offers increased payouts during 10-year Accelerated Income Period, then reduces for the remainder of your life. A unique Guaranteed Minimum Lifetime Income Withdrawal Percentage is used to determine payout amounts for each defined period. Cumulative Lifetime Income Withdrawals may be lower under the Accelerated Income Option than under the Level or Earnings-Indexed Income Options.
<b>Enhanced Income Benefit Availability and Qualification<sup>8</sup></b>	To qualify for the Enhanced Income Benefit, after a one year waiting period, the persons for whom Lifetime Income Withdrawals are based must be confined to a Qualified Care Facility <sup>9</sup> or be unable to perform at least 2 of 6 Activities of Daily Living (ADLs consist of bathing, continence, dressing, eating, toileting, and transferring) for 90 out of the last 125 Days. If qualifications are met, the Lifetime Income Withdrawal amount will increase based on the applicable Enhanced Income Benefit Multiplier. The Enhanced Benefit Limit Period is 60 months as long as the eligibility requirements are met and the Accumulated Value is greater than zero. Enhanced Income Benefit qualification must be certified by a licensed physician. If the Accelerated Income option is selected, the Enhanced Income Benefit Multiplier is applied to the ultimate Lifetime Income Withdrawal amount even if the Accelerated Income Period has not ended. Not available in all states.
<b>Enhanced Income Benefit Multiplier</b>	Single Life Withdrawals: 2x Joint Life Withdrawals: 1.5x
<b>Income Rider Termination Waiting Period</b>	After 10th Contract Year

<sup>7</sup>The Accelerated Income Period starts at the beginning of the Contract Year in which you enter the Income Phase, even if you do not start Lifetime Income Withdrawals on that Contract Anniversary.

<sup>8</sup> This benefit is NOT long-term care insurance nor is it a substitute for such coverage.

<sup>9</sup> Confinement to a Qualified Care Facility not applicable in CA.

<b>Free Withdrawal Percentage Schedule</b>	The 10% Free Withdrawal amount is calculated by applying the percentage shown to the Accumulated Value as of the previous contract anniversary. Withdrawals may be subject to federal and state income tax and, except under certain circumstances, will be subject to an IRS penalty if taken prior to age 59½.																																																								
<b>Strategy Charge</b> (Not available on the Fixed Strategy)	Strategy charge options offer higher Cap and Participation Rates. The charge is calculated by multiplying the Strategy Value of the associated Strategy and an Annual Strategy Charge Rate on each contract anniversary. A portion of that charge (1/12th) is deducted from the applicable Strategy Value each month. The Initial Annual Strategy Charge Rate is set at contract issue and guaranteed for the first Index Term Period. A new Annual Strategy Charge Rate will be declared at the start of each Index Term Period.																																																								
<b>Strategy Charge Credit</b>	A one-time Strategy Charge Credit will be added to the Accumulated Value at the end of the Withdrawal Charge Period, if the sum of all strategy charges applied, minus the sum of all interest credits, is greater than zero. If withdrawals subject to a Withdrawal Charge are taken (including a full surrender), the Credit will not be applied.																																																								

<b>Strategy Preset™</b> (Not available in NH)	Strategy Preset is a simple way to diversify across indices, which can help increase growth potential and mitigate risk. You can choose between one of three growth profiles and the renewing portion of your Accumulated Value will be automatically rebalanced each year.
<b>Terminal Illness Waiver<sup>5</sup></b> (Not available in CA)	You can withdraw up to 100% of your annuity's Accumulated Value if the Annuitant is diagnosed with a Terminal Illness that is expected to result in death within one year and the Annuitant meets the eligibility requirements. This waiver is available after your first Contract Anniversary. The Annuitant may not be diagnosed during the first Contract Year.
<b>Confinement Waiver<sup>5</sup></b> (Not available in CA & MA)	After the first Contract Year, you can withdraw up to 100% of your annuity's Accumulated Value if the Annuitant is confined to a Qualified Care facility for at least 60 consecutive days and meets the eligibility requirements. The Annuitant cannot be confined at the time the contract is issued. Confinement period must begin at least one year after the contract date.
<b>Death Benefit</b>	Greatest of (i) Accumulated Value with no surrender charges, (ii) the Minimum Guaranteed Contract Value or (iii) the Return of Premium Benefit (if applicable).
<b>Enhanced Free Withdrawals</b> (Plus only)	If no withdrawals are taken in a given year, up to 20% of the Accumulated Value is available for withdrawal in the next year.
<b>Return of Premium</b> (Plus only)	After the fourth contract year, the Cash Surrender Value will never be less than the premium minus premium taxes (if applicable) and prior withdrawals, including Withdrawal Charges, Premium Bonus Vesting Adjustment and Market Value Adjustment (if applicable) on those withdrawals.
<b>Enhanced Annuitization</b> (Not Available in CA or FL) (Plus only)	After the fifth contract year, you may elect to surrender your contract and apply the Accumulated Value to one of five settlement options. No Withdrawal Charges, Premium Bonus Vesting Adjustments or Market Value Adjustments will apply upon election of this feature, provided one of the Settlement Options is elected and annuity payments commence. Please refer to the Certificate of Disclosure for specific settlement options.
<b>Annual Liquidity Rider Charge Rate</b> (Plus only)	0.95% charge deducted from the Accumulated Value during the Rider Charge Period (same duration as the Withdrawal Charge period). The Charge is assessed upon the following: (i) end of each contract year; (ii) when a withdrawal is taken; (iii) on the Annuity Date; (iv) upon surrender; (v) upon the date of proof of death. The rider may not be terminated during the Withdrawal Charge period.

<sup>5</sup>This benefit is NOT long-term care insurance nor is it a substitute for such coverage. Limitations, variations and exclusions apply. Please see the Certificate of Disclosure for more information.

<sup>2</sup> The index is an excess return index. The returns of the index will reflect the performance of the underlying components in excess of a reference rate that could be earned on cash or a similar risk-free benchmark asset. Additionally, the performance of the index includes an embedded fee and may also include other costs such as transaction and replication costs. These costs may vary over time with market conditions. The excess return nature of index and the embedded fees and costs will all reduce index performance and the potential interest credited within the annuity contract. Because the index applies a volatility control mechanism, the range of both the positive and negative performance of the index is limited.

<sup>3</sup> The Index features a performance control mechanism that limits its maximum growth potential within any given month. Consumers may therefore forego part of the growth of the Index if it rises beyond this limit within a month.

<sup>4</sup> The full name of the S&P 500 FC Index is S&P 500 FC TCA 0.50% Decrement Index (USD) ER.

<b>Free Withdrawals</b>	Maximum of 10% of Accumulated Value or 10% of Initial Premium per year. Withdrawals may be subject to federal and state income tax and, except under certain circumstances, will be subject to an IRS penalty if taken prior to age 59½.																											
<b>Terminal Illness Waiver<sup>4</sup></b>	You can withdraw up to 100% of your annuity's Accumulated Value if the Annuitant is diagnosed with a Terminal Illness that is expected to result in death within one-year and you meet the eligibility requirements. This waiver is available after your first Contract Anniversary. You may not be diagnosed during the first Contract Year. Additional limitations, state variations and exclusions may apply. Please see the Certificate of Disclosure for more information.																											
<b>Confinement Waiver<sup>4</sup></b>	After the first Contract Year, you can withdraw up to 100% of your annuity's Accumulated Value if the Annuitant is confined to a Qualified Care facility for at least 60 consecutive days and meets the eligibility requirements. Confinement must begin after the first contract year. Additional limitations, state variations and exclusions may apply. Please see the Certificate of Disclosure for more information.																											
<b>Bailout Feature</b>	If Athene lowers the declared 1-Year Point-to-Point S&P 500® Index Strategy Cap Rate below the Bailout Cap Rate, you'll have full access to your annuity's Accumulated Value – free of any charges for up to 30 days after the Contract Anniversary in which the Bailout Cap Rate was pierced. After the 30-day Bailout Window, all charges may apply.																											
<b>Market Value Adjustment (MVA)</b>	Applied to the portion of the withdrawal or surrender that exceeds the Free Withdrawal amount during the Withdrawal Charge period. Additional limitations, variations and exclusions may apply. Please see the Certificate of Disclosure or Understanding the MVA guide for more information.																											
<b>Death Benefit</b>	Greater of (i) Accumulated Value and (ii) the Minimum Guaranteed Contract Value or may elect the Enhanced Death Benefit amount.

## Income and Death Benefit Rider – included, no additional charge

Issue Ages	40-83
Benefit Base Bonus	30%
Benefit Base Growth	The Benefit Base <sup>5</sup> is equal to the Initial Premium, plus the Benefit Base bonus amount. On each Contract Anniversary, the Benefit Base will be credited 200% of the dollar amount credited to the Accumulated Value. During the Income Phase, the Benefit Base will continue to grow by 200% of the dollar amount credited to the Accumulated Value.
Minimum Attained Age for Lifetime Income Withdrawals	50
Withdrawals	All withdrawals will reduce the Benefit Base by the same percentage that the Accumulated Value is reduced by.
Income Payout Option	Earnings-Indexed Income
Lifetime Income Waiting Period	7 years
Enhanced Death Benefit <sup>6</sup>	The Benefit Base is paid out in equal payments over the currently declared Death Benefit Payout Period. The Death Benefit Payout Period is currently set to five years and is guaranteed not to exceed ten years.
Enhanced Income Benefit Availability and Qualification <sup>7</sup>	To qualify for the Enhanced Income Benefit, the person for whom Lifetime Income Withdrawals are based must be confined to Qualified Care Facility for 180 out of the last 250 days. If qualifications are met, the Lifetime Income Withdrawal amount will be doubled. There is no Enhanced Income Benefit Limit Period as long as the eligibility requirements are met and the Accumulated Value is greater than zero. Not available in all states.

<sup>5</sup>The Benefit Base is used only for the calculation of the rider benefits. It cannot be withdrawn in a lump sum. It does not have a cash value or a surrender value.

<sup>6</sup>Enhanced Death Benefit is capped at the greater of 125% of the Cash Surrender Value or 250% of the net premium in AK, HI, LA, NH, NJ, PA and WA.

<sup>7</sup>This benefit is NOT long-term care insurance nor is it a substitute for such coverage.

<sup>1</sup> The index is an excess return index. The returns of the index will reflect the performance of the underlying components in excess of a reference rate that could be earned on cash or a similar risk-free benchmark asset. Additionally, the performance of the index includes an embedded fee and may also include other costs such as transaction and replication costs. These costs may vary over time with market conditions. The excess return nature of index and the embedded fees and costs will all reduce index performance and the potential interest credited within the annuity contract. Because the index applies a volatility control mechanism, the range of both the positive and negative performance of the index is limited.

<sup>2</sup> The Index features a performance control mechanism that limits its maximum growth potential within any given month. Consumers may therefore forego part of the growth of the Index if it rises beyond this limit within a month.
