Key Terms

Point-to-Point Cap Rate Strategy: This strategy provides growth by participating in 100% of the index's growth, if any, up to a specific point, called a 'cap'. For example, if the cap rate is 10% and the index gain is 12%, your interest credit would be capped at 10%. Your interest is credited and locked in for the term you choose.

Point-to-Point Participation Rate Strategy: This strategy provides growth by participating in a portion of the index's growth, if any. The interest credited will be calculated as a percentage of the index's growth over the period. For example, if the participation rate is 150% and the index gain is 12%, your interest credit would be 18%. Your interest is credited and locked in for the term you choose.

Point-to-Point Performance Trigger Rate Strategy: This strategy provides growth equal to the set trigger rate as long as the index return is positive or flat at the end of the strategy's term. For example, if the trigger rate is 7% and the index gain is above 0%, your interest credit would be 7%. Your interest is credited and locked in for the 1-year term available.

Fixed Interest Rate Strategy: This strategy provides growth at a fixed rate. Aspida Life credits fixed interest daily based on the rate established at the beginning of each contract year.

The Premium Bonus Feature

When the contract is issued, a bonus percentage of the initial premium will be added to your account. The initial premium **plus the bonus** will be the total amount available when choosing your allocations.

If you need access to your money early, only a prorated portion of the bonus will be available when requesting a withdrawal. The bonus vests at 10% per contract year, with any remaining bonus vesting at the end of the surrender charge period, as shown below. Only a withdrawal above the 10% free amount will lower the unvested amount of your bonus.

Contract	% of Bonus Vested at End of Contract Year									
	1	2	3	4	5	6	7	8	9	10
5-Year	10%	20%	30%	40%	100%					
10-Year	10%	20%	30%	40%	50%	60%	70%	80%	90%	100%
